

2 Year Warranty

All Liebherr appliances have a full 2 year warranty covering parts and labour. If any part of the machine fails or a fault develops through normal use, it will be repaired free of charge (in accordance with terms and conditions on our warranty card).

Extended warranty (added Security)

naa are the distributor for Liebherr within Ireland and as we have such confidence in Liebherr we are offering a further 5 year parts warranty on the integrated range (terms & conditions apply).

- Integrated appliances: Five years added Security and a further one year for Side-by-Side appliances *
- Side-by-Side appliances: Extra one year added security *

* This is on registration only. Customer must install appliance as per manufacturers instructions

Customer Care

Our National Customer Care Centre can be contacted should you require instructions or service. Please call 01 4600064 or you can email liebherr@naa.ie.

Spare Parts Direct

To order spare parts or accessories please call 01 4600064 or email liebherr@naa.ie with the model and 9 digit service number. The parts or accessories can be quickly despatched direct to your home.

Ard na Sidhe Country House

Hotel Dunloe Castle

The Europe Hotel & Resort

Liebherr's Killarney Hotels Ltd.

Liebherr's Killarney Hotels Ltd. owns and operates two five-star luxury hotels in Killarney, including The Europe Hotel & Resort, situated on the famous Lakes of Killarney and Hotel Dunloe Castle overlooking the Gap of Dunloe. The company also owns and manages Ard na Sidhe Country House, a delightful Victorian style manor house, which is situated on the shores of Caragh Lake just outside Killorglin.

The Liebherr Group has been active in Ireland since 1958, when Liebherr (Ireland) Ltd. was founded in Killarney, Co. Kerry. Initially, this company manufactured large tower cranes. During the following decades, Liebherr's portfolio in Ireland has been significantly enlarged. Today, the Liebherr Group comprises three Irish companies operating in the sectors of maritime cranes, construction machinery and hotels, which are employing a total workforce of about 700 people.

BLU
Performance

A new dimension in freshness

The new BluPerformance range is characterised by premium-quality materials, perfect craftsmanship in every detail, and precision touchscreen electronic controls. The integration of all the refrigeration components into the base of the appliance, together with optimised electronic controls, ensures maximum energy efficiency, a greater net capacity, and enhanced freezer compartment ergonomics. BioFresh and BioCool technologies keep stored food fresher for longer.

The elegant and timeless design of the BluPerformance range ensures that these appliances are a guaranteed highlight in any home and that they will satisfy for many years to come.

Multi-functional touchscreen controls

The high-resolution (800 x 600 pixels), 7" touchscreen display is integrated in the door; it is easy-to-operate and offers customisable settings. Pre-set programmes, such as EnergySaver, MaxPerformance, PartyMode or HolidayMode, provide everyday convenience. The integrated storage recommendation function indicates how long a specified food remains fresh in different storage zones and provides information about its vitamin and mineral content.

2.4" touchscreen display

The high-resolution, high-contrast 2.4" touchscreen display is located behind the door, and can be easily read from any angle. The stored menu options are intuitive and convenient-to-operate.

In Comfort appliances, the touchscreen display is monochrome; in Premium appliances the touchscreen has a colour design.

BioFresh safes, sited on telescopic rails, guarantee the perfect environment for greater freshness. When stored at a temperature of just over 0°C and at just the right humidity level, fruit and vegetables, fish, meat and dairy products all retain their vitamins, delicate flavours and appetising appearance.

Maintenance-free and energy efficient: long-life **LEDs** provide perfect illumination of the interior. LEDs emit very little heat, which ensures that fresh food is always optimally stored. The sophisticated integrated lighting design ensures maximum use of the interior space (it does not detract from the net capacity).

Bio
Fresh

With **BioFresh** food retains its healthy vitamins, aroma and appetising appearance significantly longer than in a conventional fridge. Through its advanced technology the temperature is accurately kept at just above 0°C.

Duo
Cooling

The **dual refrigeration system** creates optimal conditions in both the refrigerator and freezer which lengthens the shelf life of food items for a healthier lifestyle. This technology also preserves the flavor and texture of foods since there is no transfer of unwanted air, moisture or food aroma between the two compartments.

If the wall spacers are not used, the appliance will remain fully functional, but will have a slightly higher energy consumption level.

The **LED rear wall lighting** is integrated into the rear section of the horizontal partitioning plate. Energy-efficient, environmentally friendly and maintenance-free LEDs optimally illuminate the back section of the refrigerator compartment, from bottom to top, and provide a homogeneous, high-quality lighting concept.

Soft System

The integrated **SoftSystem** mechanism cushions door closure even when the door shelves are fully stocked; it ensures gentle closing and prevents bottles or food from falling out of the door. The door closes automatically from an opening angle of about 35°.

Bio
Fresh

In the **BioFresh** compartments food retains its healthy vitamins, aroma and appetising appearance significantly longer than in a conventional fridge. Through its advanced technology the temperature is accurately kept at just above 0°C.

No
Frost

The **NoFrost system** from Liebherr provides rapid, fan-assisted, frost-free freezing for the safe, long-term storage of food. The NoFrost technology creates a much larger storage capacity and keeps the freezer constantly frost-free to make defrosting a thing of the past.

The elegant and precise **MagicEye control** with its digital temperature display lets you keep the temperature at exactly the level you select. The clear arrangement of the function buttons makes for easy and convenient use.

The **LED ceiling light** creates a high-class ambience within the refrigerator. Its beautifully designed, space-efficient housing is centrally positioned to provide a delightfully even illumination.

Smart
Steel

Nearly all the stainless steel doors come with a **SmartSteel** surface. SmartSteel significantly reduces the visibility of finger marks and thanks to the high-quality finish of the stainless steel, is very easy-to-clean and far more scratch-resistant.

The distinctive **GlassLine equipment** puts the finishing touches to the high quality interior. The shelves are made of safety glass. The sectioned, slide-under glass shelf lends itself to versatile use as it can be inserted at different heights, as required.

Table-height freezers

The removable, extra-deep drawers with transparent front are closed all the way round. They provide a perfect view of the contents and the best storage conditions for the frozen food. Freezer drawers and glass shelves can be removed. **VarioSpace** – the practical storage solution for larger produce.

Smart Frost

With the **SmartFrost technology**, ice build-up is greatly reduced. This makes defrosting rarely necessary. The interior walls of the freezer compartment are very smooth and easy-to-clean. Freezer drawers and glass shelves made of safety glass can be removed easily.

Chest freezer

All operating and control functions are clearly and practically integrated into the ergonomically designed **chest freezer handle**. The temperature can be set using the easy-to-operate control knob. The **SuperFrost system** freezes food quickly to optimally preserve vitamins. As soon as the food is completely frozen, the automated SuperFrost function switches back to normal mode.

Stop Frost

Frosting over of the freezer and frozen food is reduced, reducing the number of times you need to defrost the freezer. **StopFrost** prevents a vacuum from building up, ensuring the lid opens easily.

Fridge-freezers for integrated use

Premium BioFresh appliances feature **two integrated lighting columns** with multiple LEDs to evenly illuminate the interior. The lighting columns also facilitate the variable positioning of the glass shelves.

In the **BioFresh compartments** food retains its healthy vitamins, aroma and appetising appearance significantly longer than in a conventional fridge. Through its advanced technology the temperature is accurately kept at just above 0°C.

Comfort models come with **Comfort GlassLine** – superior glass fittings for the door interior. The shelves for storing preserves and bottles are fitted with a satin-finished safety glass base and an attractive plastic surround with an adjustable bottle holder.

All **transparent FrostSafe drawers** are extra deep. They are designed so that all frozen foods, from a duck to a boxed pizza, will fit conveniently and neatly, and are easy to remove. Every drawer can be used for both freezing and storage, so there's no need to repack the food once it has been frozen.

RRP including VAT: € 899 *							

* included in this price is a contribution to recycling costs of € 5.

Dual purpose storage with the **integrated glass shelf and bottle shelf**. One conveniently stores beneath the other when not in use. When using the bottle shelf, move the door rack upwards allowing taller bottles to be stored.

BioFresh drawers and pull-out drawers with **SoftTelescopic**, a highly practical selfretracting, soft closing feature, which makes daily use convenient and secure. They are fully extendible and removable from a door opening angle of 90°.

The **VarioSafe** in Premium BioFresh models provides a clear view whilst creating order. It is the ideal space for smaller food packets, tubes and jars. The safe can be positioned at various levels on the lighting column. An additional insertion height is available for filling to a greater capacity if necessary.

The **BioCool-Box** allows regulation of the humidity level within the fridge compartment so that food keeps fresh for longer. It is convenient-to-use and it ensures that stored food is clear visibility.

Freezers for integrated use

Ice
Maker

The automatic **IceMaker** from Liebherr provides perfect ice cubes for every occasion. An integrated water filter ensures perfect water quality at all times. The electronic display indicates when the water filter needs replacing.

Elegant **electronic controls** on Premium models guarantee that the chosen temperature is precisely maintained. All functions can be conveniently selected via the touch-sensitive interface. The energy-saving **LED lighting** is positioned above the transparent freezer drawers, saving space.

Under-worktop appliances for integrated use

The **extra-deep bottle rack** allows storing items in two rows. For instance, tall bottles in the back row and preserves or small yoghurt tubs at the front. Both rows are safely separated by an end-to-end rail. A relocatable bottle holder keeps the bottles securely in position.

Soft
System

The **SoftSystem** feature provides added safety and convenience. Integrated on the door, the SoftSystem cushions movement when the door is closed. This SoftSystem ensures that the door closes gently even when fully loaded inside. The door automatically closes from an angle of approximately 30°.

WTes 5972

Wine

The wine cabinets are fitted with an **easily accessible lock** to protect wines from unauthorised access. As the door hinges are interchangeable on all wine cabinets, the appliances can be optimally integrated into the respective situation.

Appliances in the Vinidor range feature two separately-controllable, independent wine compartments, each of which can be set to between +5°C and +20°C. The **precise electronic controls** have a digital temperature display and are easy to use, via either a touch screen interface or electronic keys depending on the model.

Energy efficiency class: A
Energy consumption year/24 hrs: 168/0.460 kWh
Max. Bordeaux bottles 0.75 l: 200 ¹
Gross/net capacity: 427/395 litre
Noise output: 41 dB(A)
Climate rating: SN-ST
Door/side walls: Glass door, frame black/black
Exterior dimensions in cm (h/w/d): 165/60/73.9
RRP including VAT: € 1.399 *

¹ These models are only bound for storing wine. Maximum DIN norm bordeaux bottles capacity (0.75 l) as per norm NF H 35-124 (H: 300.5 mm, Ø 76.1 mm)

² To achieve the indicated energy consumption level, the wall spacers provided with the appliance must be used. These increase the appliance depth by approximately 3.5 cm. If the wall spacers are not used, the appliance will remain fully functional, but will have a slightly higher energy consumption level.

* included in this price is a contribution to recycling costs of € 5.

The electronic LC-Display is an innovative design feature. Clear menu navigation and a **Touch-electronic control system** provides yet more information for tailored storage conditions. The digital temperature display can be read from the outside of appliances with glass doors. The Touch-electronic navigation ensures easy selection and use of the numerous control functions.

The Vinidor appliances are equipped with solid **wooden shelves mounted on telescopic rails**. The handcrafted shelves made from untreated wood are ideal for storing Bordeaux bottles safely, providing a clear view and easy access. Storing the bottles in opposite directions permits full use of the capacity.

The handle-free glazed door guarantees perfect integration into a handle-free kitchen. Not only provides UV protection you can trust but also ensures superb visibility of the stored wines. The **TipOpen technology** opens the glazed door 7 cm when tapped and, if the door is not opened further within three seconds, the soft-closing system will shut it again.

All wine cabinets feature dimmable **LED lighting**, which evenly illuminates the interior and can be left on permanently if desired. Because LEDs generate minimal heat, wines can be sympathetically illuminated and beautifully presented for an extended period of time.
